

# Munken Polar Rough

Extraordinary printing demands extraordinary design paper. The uncoated, extra tactile surface of Munken Polar Rough and its crisp white shade make a perfect combination for well-defined images and even more of a natural paper feel. Thanks to high bulk you can choose a lower grammage and keep thickness as well as paper stability for the best final result. Munken Polar Rough is developed for offset print and also suitable for various kinds of printing techniques; flexo, laser, xerography, digital printing, inkjet and for preprint applications. Also available is a natural white, Munken Lynx Rough, a cream shaded version, Munken Pure Rough and the highwhite Munken Kristall Rough.

Munken Polar Rough standard products are available as EU Ecolabel, FSC® – The mark of responsible forestry. [www.fsc.org](http://www.fsc.org). FSC-C020637 and PEFC™ PEFC/05-33-99 certified.
